Testimony

Once again, I am writing to implore you to pass Bill 22 as it was originally written, NOT with the awful changes proposed by the Human Society. Why is the HHS so invested in wanting to kill cats? I do not get it. They have all the funding, yet a deplorable record if you read the number of animals they take in and their euthanasia rate. it is a disgrace. This bill would allow LOWER cost spay/neuter which is a BIG part of the problem here on Oahu. Unfixed pets are abandoned because the cost is too high and when people move, they cannot take their pet. The HHS should be supporting this bill 100%. mahalo for your time.
